EDUCATION

National Institute of Technology, Jamshedpur

Bachelor of Technology

Major in Computer Science & Engineering

Dec 2020 - Present

CGPA: 8.08

International Indian School AI - Jubail, KSA

Class 12th - Central Board of Secondary Education (CBSE)

May 2020

Percentage: 81.4%

International Indian School AI - Jubail, KSA

Class 10th - Central Board of Secondary Education (CBSE)

May 2018

Percentage: 80.1%

EXPERIENCE

eRentals. (Renting startup)

June 2023

→ Frontend Developer

- Built **Vendor dashboard** to visualize core business transactions, saving 10 hours per week of manual reporting work.
- Revamped the delivery page, **reducing load times by 40%**. Additionally, optimized the Google Maps API integration, streamlining the coordinate retrieval process for deliveries.
- Fixed **UI components** and bugs.
- Performed an update of APIs across Vendor, Customer, and Admin panels, resulting in a **20% reduction in response time**.

PROJECTS

CodeBlog

[App Link](#) | [Source Code](#)

- Designed and developed a **specialized blogging web application** tailored to the needs of computer science students.
- Implemented full **CRUD operations** for each blog, enhancing the user experience and content management capabilities of the platform.
- Enabled users to write and share programming code seamlessly through the **integrated code editor**.
- Promoted community engagement and discussion by allowing users to **post comments** on fellow users' blogs.
- Full **authentication** using JWT.
- Interactive and fully responsive for **mobile devices**.
- Implemented user-friendly **Sign-In and Log-in pages**, ensuring a seamless and efficient user experience.
- **Tech stack:- React.js, Node.js, Express.js, CSS, MongoDB, JWT**

PortScann

[App Link](#) | [Source Code](#)

- Developed a Python-based **port scanner**, demonstrating engagement in network programming and cybersecurity.
- Able to scan **5000 ports** accurately.
- Delivers comprehensive information regarding the status of each scanned port, including whether it is **open or closed**.
- Facilitates the identification of **vulnerabilities and potential security risks**.
- **Tech stack:- React.js, Python, SCSS**

SKILLS

Language → **C++**

Web Technologies → **Javascript, ReactJS, ExpressJS, NodeJS, HTML, CSS, SCSS, UX/UI Design, Integration**

Databases → **MySQL, MongoDB**

Tools → **Git, GitHub, Flask, Google Analytics, Hubspot, Trello, Figma UI, Illustrator, Photoshop, Lightroom.**

ACHIEVEMENTS

Culfest - Cultural Festival of NIT Jamshedpur

→ Creative Design Head

- Lead a team of highly skilled designers for the creation of visually captivating posters, compelling branding videos, and impactful promotional content.

Quod Invicta - Fashion Team of NIT Jamshedpur

→ Co-operate and Sponsorship Head

- Demonstrated strong negotiation and communication skills by successfully securing two valuable sponsorships for the team.
